

# CASE STUDY

**Contractor:** AL Driveway  
**Paver Type:** Concrete Block Paving -  
200x100mmx80mm  
**Product:** Resiblock '22'  
**Date:** August 2016

When Andrew Lee of AL Driveway sent us this entrant to the 2016 Resiblock Sealing Awards we were completely stunned that this was the work of someone who had only been endorsing Resiblock products for around three months.

Despite being part of a very tough category, Andrew Lee was named winner in the Best Driveway category of the 2016 Resiblock Sealing Awards. The transformation that can be seen from the before (bottom right) and after (top right) photos are stunning.

At the time of the announcement of Andrew's entrant, Managing Director Paul Lamparter said: "With over 160 entries for Driveways alone, this category was particularly tough to choose from. We selected AL Driveway's submission as he produced this piece of work after only three months of being a Resiblock Registered Contractor. We felt this was a truly remarkable achievement."
