## Resiblock Algae, Mould and Lichen Remover

### Product Description

The appearance of green algae/lichen on property substrates and in a garden environment is generally viewed as unsightly, it can also be potentially dangerous on pathways/walkways due to its slippery characteristics. The effectiveness and ease of application of Algae remover has the great attraction in that no physical work is required i.e. scrubbing, brushing, pressure washing\* or rinsing in order to achieve the removal of green organic growth from all types of hard surfaces. Just apply to the area and leave. The result will be visible within 36 hours and it protects against re-growth for up to 9 months.

### Benefits

- Safe and easy to use
- Water based and non-flammable
- Non-corrosive, non-ozone depleting
- Manufactured to work in conjunction with Resiblock sealers
- Eco-friendly
- Low VOC

### Where to use

All hard outdoor surfaces such as paved areas, patio's, driveways, block pavers, fencing, decking, steps, sheds, glass, UPVC windows, greenhouses, Perspex, garden furniture, walls, roofs, terracotta pots, in fact any surface that will allow green algae/lichen to grow.

### Cleaning of equipment

Remove as much excess product as possible and clean tools and equipment immediately after use with soapy water.

### Product Characteristics

<b>Colour</b>	Clear
<b>Odour</b>	Characteristic odour
<b>Form</b>	Liquid
<b>PH</b>	8
<b>Storage</b>	Store in a cool, well ventilated area. Must be kept only in original packaging
<b>Coverage</b>	5 litres will treat up to 50m <sup>2</sup>

### Application

Apply using a normal watering can with rose attachment. Apply 1 litre of product per 5-10 square meters.

After applying leave for 1-3 days and green growth will slowly disappear (in a similar manner to the way weed killers work). On heavily soiled surfaces a second application may be required.

\*After treatment, before Resiblock sealers can be applied, the area will require pressure washing.

Whilst this product is designed to be safe to use on most water safe surfaces, we recommend that you test on a small inconspicuous area if unsure

### Precautions for use

For Health & Safety instructions, first aid measures, spillages and disposal instructions, see separate Health & Safety Data Sheet (MSDS)
